Personal Profile

My future plan is to be a Data Analysis. So, I will like to study Data Analysis as I want to work in a programming environment. This is the course I'm looking for, and I will like to study about Data Analysis in depth so that in future I will like to become a Data Analysis in big tech company.

Academic Qualification

Sn	Year	Qualification	College	University
1	2017-2019	BSc (Hons) Computing	Islington College	London Metropolitan University
2	2014-2016	+2	The Times International College	Higher Secondary Education Board (HSEB)
3	2014	School Leaving Certificate	Chandika Shwori English Secondary School	Nepal Board

Online Courses

MERN stack (2021): Inventors Academy

Java Spring Boot (2022): Inventors Academy

Professional Experience

Nepal Bank Limited

(2018 - 09 to 2019 - 01) Internship

Worked at IT/MIS Department as IT support. My role was to troubleshoot the network problem as well as hardware problems, monitor the network and help office staff about technical thing.

Inventors Academy

React JS Internship

Inventors Academy

Junior MERN Stack and Spring boot developer

Key Qualifications & Responsibilities

- Involved in various phases of Software Development Life Cycle (SDLC) of the application like Requirement gathering, Design, Analysis and Code development.
- Worked extensively with the backend which comprised of Spring, Hibernate and JPA.
- Worked with Spring MVC and Hibernate in the backend to build the business logic.
- Developed Data Access Layer using Hibernate and DAO Design Pattern.
- Created connections to database using Hibernate Session Factory, using Hibernate API to retrieve and store data to the database with Hibernate transaction control.
- Utilized Spring MVC framework to implement design patterns like IOC (Dependency Injection), Spring DAO (Data Access Objects), Data Transfer objects, ORM Mappings.
- Developed Servlets and JSP for performing CRUD operations on domain specific entities.
- Developing Full-stack web applications which processed, analyzed, and rendered data visually.
- Cooperatively worked with back end developer, front end developer and quality assurance testers as needed.
- Manage time-sensitive updates, including context changes and database upgrades.
- Planned, wrote, and debugged web applications and software with complete accuracy.

Key Skills

- Web application development
- HTML, CSS, JavaScript, React
- Bootstrap & Material UI
- jQuery
- Java, Spring Boot
- MySQL Database, MongoDB Database, PostgreSQL
- Heroku
- Digital Ocean
- GitHub
- Postman
